SUSSED
Where we are, where we could go and how we might get there

Patrick McSweeney

iSolutions TIDT
#sussed_changes
Patrick

- ECS Student
- ECS Researcher
- iSolutions
It is socio-technical
How we got there...

- We lost it when we were reshuffling
- No body wanted it
- There's project to replace it...
Students complained

- I was part of the SLE project
- Use Sharepoint to replace SUSSED
- I talked to a lot of people
Enter the 9Granders

- I moved to iSolutions...
- Management agreed SUSSED needed a clean up
- I was someone who had the time and skills
Identified Audiences

- Students
- Academic staff
- Research staff
- Professional services
- Senior leadership
Don liked it...

- The students liked it
- So we carried on
Welcome to SUSSED, which offers you a wide range of information relating to your working life at the University.

Log in to access the full range of features, from the latest campus news, upcoming events and internal job advertisements through to sites dedicated to each service and academic area around the University.

SUSSED is also the portal through which you can access key administrative systems including Agessa (procurement), MyView (leave bookings, pay slips) and Room Bookings.

- Geographical access to care at birth in Ghana: a barrier to safe motherhood
  - Mon, 04 Feb 2013
So here we are...
Where are we going?

- So far change has been slow
- Too slow
- Now we need to correct that
More Audiences

- There should be a tab for:
  - Academics,
  - Professional services
  - Senior leadership
- You should land on your own tab!
- We could stand to lose a few tabs too
Bells and whistles

- We need a basic level of service
- Then we can do cool stuff
Could be through outlook?

Could have ICS

Could show on map
More new branding

- We are trying to standardize our apps
Personalization

- The site shapes to fit you
- We do some of this already
- It would be nice if it was more sophisticated
Customization

- This a feature sussed has already
- It needs some work
- May add a lot of value
Have your say

- Do you like the new look?
- What would you change?
- What is missing?
- What things would you like to see in the future?
- What things can we make better use of?
