**COMP1205 Presentation Programme 2013-14**

**General Notes – Please read carefully**

You are welcome to attend any of the presentation sessions as a member of the audience. Presentation topics are included below for information and planning.

**If you are presenting**

- Although each group has been asked to prepare a 10-minute presentation, and should allow for 5 minutes of questions, 20 minutes has been allocated to each presentation slot to ensure that handovers do not disrupt the schedule.

- If you are in a presentation group you are expected be present during all the presentation during your allocated session.

- The two academics, who attend your presentation session, will be responsible for determining your group mark.

- You will receive immediate verbal feedback on the session in an “all group” slot immediately after the presentations for your session have been completed

- If you want to video your session so that you can review it as a group after the event, please organise that independently

**If you are marking/observing**

- Marking groups are expected to complete a mark sheet for each presentation that they observe.

- Hand in the completed mark sheet at the end of the presentation session

- You will receive an individual mark for the participation that will reflect the criticality of your marking and the quality of your observations.

- Members of the marking groups may leave once they have handed in their completed mark sheets

---
