16/2/11: Web Crime as moral panic?

Role: Public representative asked to comment on new website

Task: Look at getsafeonline.org and the government strategy document and prepare a short argument about why this could be a '*moral panic*'

Specific areas for your attention:

1. To what extent is cybercrime real or imagined?
2. What does the government view of cybercrime do to public perceptions of such crime? and to models of law enforcement?
