

# INFO1010 Group Presentations

## Allocations

On the next pages there is a timetable for the group presentations and details of the topic which you have been allocated. Unfortunately it has not been possible to give all of you your first choice of topic.

## Slide Show

- You are expected to include all the members of your tutor group.
- Please work together to produce your slide show
- You can prepare your slides with any software you choose, however, we expect the slide shows to run seamlessly
- All students are required to individually hand in a copy of the slide show for their group by the deadline of Monday 9<sup>th</sup> January at 23:59.
- The handin can be in either PDF or PPTX format.
- These slides will then be available on the computer in your presentation room.
- You can either
  - show your pptx or pdf slides from the bench PC
  - access your slides via the web from the bench PC (eg for Prezi presentations)

We do not have any specific requirements as to the style of the presentation, however all presentations must include an identifying slide as shown below

## Example of Slide 1
