

# WEBS2002 Interdisciplinary Project

## Week 4: Overview

<http://www.edshare.soton.ac.uk/13525/>

### Theme: Understanding Interdisciplinarity

The materials are designed to help you think about interdisciplinarity:

- They might be used as a checklist as you progress with your project
- You might revisit them when you are making edits to your project report to check how you have addressed the interdisciplinary nature of your project
- You might revisit them as you review your progress and when you prepare any reflections

Slides include links to other materials
